YOUR INFECTION RISK IS LOW. WE RECOMMEND THAT YOU STAY AT HOME TO AVOID ANY CHANCE OF EXPOSURE TO THE NOVEL CORONAVIRUS

COVID SYMPTOMS

BACK

COVID SYMPTOMS

COVID-19 affects different people in different ways.
Most infected people will develop mild to moderate illness and recover without hospitalization.

Most common symptoms:

fever
dry cough
tiredness

Less common symptoms:

aches and pains
sore throat
diarrhoea
conjunctivitis
headache
loss of taste or smell
a rash on skin, or discolouration of fingers or toes

Serious symptoms:

difficulty breathing or shortness of breath
chest pain or pressure
loss of speech or movement

Seek immediate medical attention, if you have serious symptoms.
Always call before visiting your doctor or health facility.
People with mild symptoms who are otherwise healthy should manage their symptoms at home. On average it takes 5–6 days from when someone is infected with the virus for symptoms to show, however it can take up to 14 days.
